Dallas - Texas

Dallas is a major city in the state of Texas and is the largest urban center of the fourth most populous metropolitan area in the United States. The city proper ranks ninth in the U.S. and third in Texas after Houston and San Antonio. The city's prominence arose from its historical importance as a center for the oil and cotton industries, and its position along numerous railroad lines.

These days, the city is noted for its modern and postmodern architecture, as well as Gothic Revival architecture such as the Kirby Building (also of note is Swiss Avenue, home to a stretch of homes featuring architectural styles from Victorian to Neoclassical).

Visitors can enjoy art institutions such as the Dallas Museum of Art, the Crow Collection of Asian Art, and the Nasher Sculpture Center, and the city is also home to numerous parks, providing ample opportunity for outdoor activities such as cycling, swimming, tennis, and golf. The Sixth Floor Museum at Dealey Plaza examines the life, times, death, and legacy of President John F. Kennedy.

The city's economy is primarily based on banking, commerce, telecommunications, technology, energy, healthcare and medical research, and transportation and logistics. The city is home to the third-largest concentration of Fortune 500 companies in the nation.

Porto Alegre (Rio Grande do Sul - BRASIL)

Porto Alegre is the capital and largest city of the Brazilian state of Rio Grande do Sul, its population of 1 500 000 inhabitants makes it the tenth most populous city in the country.

After the Treaty of Madrid (1750), around 1,000 couples from the Azores were distributed in the area. Rio Grande was invaded by the Spaniards in 1763, and the Portuguese population immediately fled to Viamão.

The Port of Viamão was raised to a parish with the name of Parish of São Francisco do Porto dos Casais in 1772, today established as the official date of the founding of the city. The city lies on the eastern bank of the Guaíba River (also referred to as a lake), where five rivers converge to form the Lagoa dos Patos (Lagoon of the Ducks), a giant freshwater lagoon navigable by even the largest of ships.

This five-river junction has become an important alluvial port as well as a chief industrial and commercial center of Brazil.

The city was one of the host cities of the 2014 FIFA World Cup, having previously been a venue for the 1950 FIFA World Cup.
